

E ENERGY STORIES

A **PRO ALLY** Publication

WHO WE ARE

Energy Stories is a revolutionary, people-centred publishing platform for energy and extractive professionals.

WHAT WE DO

We build thought leadership, visibility, and distribution opportunities for humanized stories.

WHAT WE BELIEVE

We believe complex subjects attract people and trust can be built, if humanised.

We are a platform for energy and extractive professionals (engineers, technicians, utility workers, students, policy-thinkers, everyday professionals) to share real experiences, bold insights, and human stories in plain language.

COLLABORATION OPPORTUNITIES

We invite brands, organizations, and stakeholders to collaborate by leveraging Energy Stories's platform for:

- Content partnerships: Sponsored editorial, thought-leadership pieces, sector-focused storytelling.
- Specialised communication & stakeholder-management support in energy and extractive sectors.
- Video Animation and creative design
- Training & capacity building such as workshops, coaching, organization communications support.
- Industry event coverage or event-related content partnerships (e.g. Red Carpet Interviews, communique, hosting).
